1. Product and Company Identification

Product Name: JIOS AeroVa® Aerogel Powder

Chemical Name: Trimethylated silica gel

Use of the Material, Industrial Products, Various Substance/Preparation: High performance insulation material Biochemical carriers

Supplier:
JIOS Aerogel Corporation
531-14, Gajang-ro, Osan-si, Gyeonggi-do, Korea 447-210
Tel: +82 31 379 8700
Fax: +82 31 379 8788, 8799

2. Hazards Identification

Note to section 2: Hazard identification is based on literature review for synthetic amorphous silica (CAS No.7631-86-9)

Hazard-Risk Classification
Acute dermal toxicity Category 5
Acute Inhalation toxicity (Dusts and Mists) Category 4

Label elements including precautionary statements
Symbol:

Signal Word: Warning

Hazard-Risk Statement: H332 Harmful if inhaled.
H313 May be harmful in contact with skin.

Precautionary Statement
*Prevention:
P261 Avoid breathing dust.
P271 Use only outdoors or in a well-ventilated area.

*Response:
P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P312 Call a poison center or doctor/physician if you feel unwell.

Other Hazard-Risk which is not included in the classification criteria

4. First Aid Measures

Eye Contact:
Flush eyes immediately with large amount of water for 15 minutes. If irritation occurs and persists, get medical treatment.

Skin Contact:
Remove contaminated clothing and shoes from skin and wash thoroughly with soap and water or waterless cleanser. Get medical attention if irritation or other ill effects develop or persist.

Inhalation:
If cough, shortness of breath or other breathing problems occur, move to fresh air. Seek medical attention if symptoms persist. If necessary, restore normal breathing through standard first aid measures.

Ingestion:
Do not induce vomiting. If conscious, give several glasses of water. Never give anything by mouth to an unconscious person. Material will pass through the body normally.

Acute and Delayed Symptoms/Effects:
Acute and Chronic high concentration of this material may cause irritation to eyes skin, Acute and Chronic high concentration of this material may cause irritation to eyes skin, respiratory tract and have an effect on Lung. **Note:** See section 11 for toxicological information

Indication of Immediate Medical Attention and Notes for Physician:
Treat symptomatically.

5. Fire-Fighting Measures

Suitable (and unsuitable) extinguishing media:
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
On large fires, use dry chemical, foam or water spray. On small fires, use carbon dioxide (CO2), dry chemical or water spray. Water can be used to cool fire exposed containers. **DO NOT USE** a solid water stream as it may scatter and spread fire.

Specific hazards arising from the chemical
**Specific Hazards:** Wear suitable protective equipment. In the event of fire, wear self-contained breathing apparatus.
**Hazardous Combustion Products:** Heating can release vapors which can be ignited.
Avoid temperatures above 400°C. The product is insoluble and floats on water. If possible, try to contain floating material.
Carbon monoxide, Carbon dioxide, Organic products of decomposition.
**Risk of Dust Explosion:** Dust may form explosive mixture in air. Take precautionary measures against static discharges.
**Special protective equipment and precautions for fire-fighters**
Self-contained breathing apparatus and protective clothing should be worn in fighting large
fires involving chemicals. Use water spray to keep fire exposed containers cool. Determine the need to evacuate or isolate the area according to your local emergency plan.

6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions:** Avoid dust formation. Ensure adequate ventilation. Remove all sources of ignition. Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use personal protective equipment.

**Protective equipment and emergency procedures**

**Eyes:** Use full face respirator.

**Skin:** Wash at mealtime and end of shift. Wear protective clothing to minimize mechanical irritation.

**Inhalation/Suitable Respirator:** Respiratory protection recommended. Follow OSHA Respirator Regulations (29 CFR 1910.134) and use NIOSH/MHSA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

**Precautionary Measures:** Avoid eye and skin exposure. Avoid breathing dust. Keep container closed. Use reasonable care.

**Note:** These precautions are for room temperature handling. Use at elevated temperature or aerosol/spray applications may require added precautions.

**Environmental precautions and protective procedures**

The product is insoluble and floats on water. If possible, try to contain floating material. Prevent product from entering drains. Local authorities should be advised if significant spillages cannot be contained.

**The methods of purification and removal**

Remove possible ignition sources. Clean up promptly by vacuum. Sweep, mop or wipe up and contain for salvage or disposal. Fine powders may require special vacuum filters; damp mopping or washing is preferred. Pick up and transfer to properly labeled containers. Avoid dust formation.

7. Handling and Storage

**Precautions for safe handling:**

Dust may be harmful if inhaled. Avoid dust formation. Do not breathe dust. Provide appropriate exhaust ventilation at machinery and at places where dust can be generated. Avoid contact with skin and eyes. Keep away from heat and sources of ignition. Take precautionary measures against static discharge. All metal parts of the mixing and processing equipment must be earthed/grounded. Ensure all equipment is electrically earthed/grounded before beginning transfer operations.

**Conditions for safe storage:**

Keep containers tightly closed in a dry, cool and well-ventilated place. Keep in properly labeled containers. Do not store together with oxidizing materials and volatile chemicals as they may be adsorbed onto product.

8. Exposure Controls and Personal Protection
Control parameters (e.g. occupational exposure limit values, biological limit values):

EXPOSURE LIMITS
There are no exposure limits identified for this specific product. Exposure limits for silica are stated below. **Silica 7631-86-9**

- **Austria** MAK: 4 mg/m³ (TWA, Inhalable fraction)
- **Belgium** OEL: 10 mg/m³ (TWA, Inhalable fraction), 3 mg/m³ (TWA, Respirable fraction)
- **Germany** TRGS 900: 4 mg/m³ (TWA, Inhalable fraction), 10 mg/m³ (TWA, Inhalable fraction), 3 mg/m³ (TWA, Respirable fraction)
- **Italy** OEL: 4 mg/m³ (TWA, Inhalable fraction), 10 mg/m³ (TWA, Inhalable fraction), 3 mg/m³ (TWA, Respirable fraction)
- **Netherlands** MAC: 10 mg/m³ (TWA, Inhalable fraction), 5 mg/m³ (TWA, Respirable fraction)
- **Norway**: 1.5 mg/m³ (TWA, Respirable fraction)
- **Spain**: 10 mg/m³ (TWA, Inhalable fraction), 3 mg/m³ (TWA, Respirable fraction)
- **Sweden**: 10 mg/m³ (TWA, Inhalable fraction), 5 mg/m³ (TWA, Respirable fraction)
- **UK WEL**: 6 mg/m³ (TWA, Inhalable fraction), 2.4 mg/m³ (TWA, Respirable fraction)
- **US OSHA a PEL**: 15 mg/m³ (TWA, total dust), 5 mg/m³ (TWA, Respirable fraction)
- **ACGIH**: 10 mg/m³ (TWA, Inhalable fraction), 3 mg/m³ (TWA, Respirable fraction)

Appropriate engineering controls:
Provide appropriate exhaust ventilation at machinery and at places where dust can be generated. Ensure adequate ventilation to maintain exposures below occupational limits.

Personal protective equipment:

- **Respiratory protection**: Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Suitable Respirator: Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators.
- **Eye/Face protection**: Use proper eye/face protection - safety glasses with side-shields as a minimum.
- **Skin protection**: Repeated exposure may cause skin dryness or cracking. Use protective skin cream before handling the product. Wear suitable gloves for hands and protective clothing for body. Remove and wash contaminated clothing before re-use. No special protective equipment required.

### 9. Physical and Chemical Properties

- **Appearance**: White Particles
- **Odour**: Odorless
- **Odour threshold**: Not determined.
- **pH**: Not applicable
- **Melting point/Freezing point**: 1700 °C after partial decomposition
- **Initial boiling point and boiling range**: 2230 °C after partial decomposition
- **Evaporation rate**: Not applicable
- **Flammability (solid, gas)**: Not determined.
- **Upper/lower flammability or explosive limits**: Not determined.
- **Vapor pressure**: Not determined.
- **Solubility**: Insoluble
- **Vapor density**: Not determined.
- **Relative density**: Not determined.
- **Partition coefficient(n-octanol/water)**: Not determined.(Floats on water; disperses in oil)
- **Auto-ignition temperature**: 500°C
- **Decomposition temperature**: Not determined.
- **Viscosity**: Not determined.
Safety Data Sheet

JIOS AeroVa® Aerogel Powder

Revision Date: 09/06/2015

Formula mass: Not determined.

10. Stability and Reactivity

Chemical stability: This product is stable.
Possibility of hazardous reactions: Hazardous polymerization does not occur.
Conditions to avoid (e.g. static discharge, shock or vibration, etc.):
Do not expose to temperature above 300°C. Avoid conditions where oxygen may condense in or around this product, as this will increase the flammability.
Incompatibility with various substances: Not available
Hazardous decomposition products:
Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products: Carbon oxides and traces of incompletely burned carbon compounds.

11. Toxicological Information

Note to section 11: Toxicological information is based on literature review for synthetic amorphous silica (CAS No. 7631-86-9)

Information on the likely routes of exposure

Inhalation:
Inhalation of airborne dusts may cause mechanical irritation of the upper respiratory tract.

Skin Contact:
Skin contact with dust from this product can produce a drying sensation and mechanical irritation of the skin and mucous membranes.

Eye Contact:
Exposure to dust from this product can produce a drying sensation and mechanical irritation of the eyes.

Delayed, acute and chronic toxic effect for short and long term exposure

Acute toxicity (Oral) Not Classified
Rat LD50 >5110 mg/kg, OECD TG 401 GLP

Acute toxicity (Dermal) Category 5
Rabbit LD50 > 2000 mg/kg

Acute toxicity (Inhalation-dust) Category 4
Rat LC50 >2.2mg/L

Skin Corrosion/ Irritation Not classified
Not irritating (OECD Test Guidelines 404, GLP). Slightly hazardous in case of skin contact on human are not irritating to skin and eyes under experimental conditions.

Serious Eye Damage/ Irritation Not classified
Not irritating (OECD Test Guidelines 405, GLP). Draize score 0.7/110, 24 hr. Non-irritating. Synthetic amorphous silica is not irritating to skin and eyes on human under experimental conditions.

Respiratory sensitizer Not available
Skin Sensitization Not classified
A delayed contact hypersensitivity study
(Directive 84/449/EEC, B. 6) in guinea pigs utilizing the Buehler technique was performed. Not-sensitizing

Degradability

Stability: Stable
Degradability: The methods for determining biodegradability are not applicable to inorganic substances.

Bioaccumulative potential

Biodegradable: Not applicable for inorganic material.
Enrichment: Not applicable for inorganic material.

Mobility in soil

Insoluble. Not expected to migrate.

Other adverse effects

None expected.

13. Disposal Considerations

Disposal method
Can be burned in suitable incineration plants or disposed of in a suitable landfill in accordance with the regulations issued by the appropriate federal, provincial, state and local authorities.

Disposal precaution

14. Transport Information

Not classified as dangerous in the meaning of transport regulations.
Shipping Name: Not regulated for transport
Hazard Class / UN Number / Packing Group / Required Label(s) / Marine Pollutant / Additional Information / DOT Road Shipment Information (49 CFR 172.101) / Ocean Shipment (IMDG) / Air Shipment (IATA): None

15. Regulatory Information

Hazard Classification
Mexico - NOM-018-STPS-2000: Refer to HMIS Rating in Section 16.
Canada - WHMIS Classification (CPR, SOR/88-66): Not controlled.

International Inventories:
This material is listed on or exempt from the following inventories:
- Australian Inventory of Chemical Substances (AICS) / Canadian Domestic Substances List (DSL) / European Inventory of Existing Commercial Chemical Substances (EINECS) / New Zealand Hazardous Substances and New Organisms Act (HSNO) / United States Toxic Substances Control Act (TSCA) Inventory: YES
- Chinese Inventory / Japanese Inventory of Existing and New Chemical Substances (ENCS) / Korean Existing Chemicals List (KECL) / Philippines Inventory of Chemicals and Chemical Substances
9/10 page
(PICCS): No
NOTE: The chemicals in this product may not be subject to notification in the following countries under an "article" exemption: Canada, Japan, Korea, New Zealand and Switzerland.

U.S. Federal Regulations
TSCA 12(b) Export Notification: This product does not contain any components that are
subject to TSCA 12(b) Export Notification.

**Clean Air Act Amendments of 1990 (CAA, Section 112, 40 CFR 82):** This product does not contain any components listed as a Hazardous Air Pollutant, Flammable Substance, Toxic Substance, or Class 1 or 2 Ozone Depletery.

**Clean Water Act (CWA, 40 CFR 116) Priority Pollutants:** This product does not contain any listed Priority Pollutants.

**Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, 40 CFR 302):** This product does not contain any listed Hazardous Substances.

**Superfund Amendments and Reauthorization Act, Title III (SARA):** SARA Section 302 (40 CFR 355) Extremely Hazardous Substances: No components are listed as extremely hazardous chemicals under SARA Section 302. SARA Sections 311/312 (40 CFR 370) Hazard Category: This product does not meet any of the MSDS Requirement definitions for a hazardous material under SARA Sections 311/312. SARA Section 313 (40 CFR 372) Toxics Release Inventory: Does not contain any of the substances identified under Section 313 as toxic chemicals in excess of the minimum concentrations necessary to be subject to this rule.

**Pharmaceutical Information:** Not permitted U.S. State Regulations

**California Proposition 65:** This product does not contain any components listed on California Proposition 65.

**US Coalition of North Eastern Governors (CONEG) Metals List:** This product meets the CONEG Source Reduction Council limits for the sum of the levels of lead, cadmium, mercury and hexavalent chromium of less than 100 parts per million by weight.

**EC Regulatory Information**

Product is not a classified as a dangerous material or preparation as defined in EC Directives 67/548/EEC or 1999/45/EC and EU CLP.
